PROFILE

As a Series Creator and Showrunner of Netflix's animated series "Dogs in Space" I've managed teams of Writers, Concept Artists, Designers, Storyboard Artists, Animators, Actors, Composers, and Editors. Through my unique position in production I have gained insight into what is expected from a leadership role and I take those lessons with me into any position. Great problem solver and I don't let ego get in the way of working in a collaborative space.
